

Your reliable, personal & cost
efficient partner for industrial spare
parts made in Europe & USA.

PARTS CORPORATION

Portfolio

Who we are

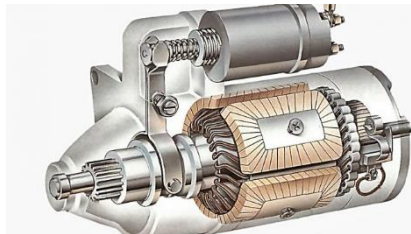

We are a qualified German/American supplier for the foreign industry. We deliver highest quality components from European and American manufacturers. Whether you need spare parts, components, machines, special raw materials or reconditioning services, we are certain that we can serve your needs.

PEMI PARTS CORP has as a strategic partner the company Centurius Import Export GmbH in Germany, allowing it, specialized in the supply of spare parts and technical equipment for Cement Industry, Power Generation, Utilities, Marine and General Industry. We have used our 20 years' experience in supplying spare parts for industries around the world.

As a full-range supplier PEMI PARTS CORP/Centurius Import Export have access to an almost complete spectrum of spare parts from the most varied manufacturers in EUROPE, USA and ASIA – economically from a single source. Be it Thermoelectric Power Plant HFO-Diesel, GAS engines, Turbines, compressors, separators, pumps, plate heat exchangers, water treatment plants or other electrical products – from our database of several hundred thousand listed articles we can put together a suitable offer for you without delay.

We provide customers with spare parts and materials in Latin America, The Middle East and Asia, being among the first companies in Europe and USA that enjoy the known consignor status. This allows us to send air freight directly to our clients, avoiding bottlenecks at customs.

How we work

We adapt to our customers!

We receive quotation requests via e-mail or are invited to quote via our customer's online portal.

We find the best prices on the market as fast as possible.

We deliver in single or consolidated shipments, either EXW, FCA/FOB, CIP/CIP, CPT/CFR or DAP with the carrier of your choice

Usually, our customers pay 30 days net from date of invoice.

We deliver at all levels!
